Beautiful Stuff

Blossoming Cherries Learning Centre

Collecting

First, we asked the children to come with coloured collections from home, then we made collections of "beautiful stuff" materials – found and recycled things. Children could take as many things as they wanted

for their collection.

"Oh, it is nice"

"I have a butterfly."

"It is for Santa Claus"

"It is Santa Claus crown."

Making Collages

Next the children were told "Now you can make anything you like with the materials, and you can also share some materials. You can arrange the beautiful things however you like." The children described their creations and we wrote down their words.

Aviva: oh, it's nice, one, two, three, four five, I'll take my flowers. I can take some string. The most beautiful garden, I need some beads

Lloyd: Hey! Look at this kifagio to clean everything that is my broom, I want it.

Fabian: Something beautiful, beads, am making a shop, teacher am sharing with my best friend.
